FOURTEEN AMERICAN AVIATORS ARE MAKING GREAT TEST FLIGHT TODAY

LOST IN RAGING BLIZZARD UKIAH WOMAN WANDERS THROUGH SNOW ALL NIGHT UNTIL RESCUERS COME

(East Oregonian Special.)

UKIAH, Ore., Dec. 30.—Lost in a blizzard and wandering through the snow all night and rescued next morning exhausted and nearly frozen by a searching party headed by her son, was the harrowing experience a few days ago of Mrs. Jackson, who lives six miles from Long Creek.

She had started late in the evening to go to a neighboring place and had gone but a little way when the blizzard swept down upon her. In the blinding storm she lost her way and soon had no sense of direction at all. To save herself she kept her back to the storm and drifted with it.

When she had not returned at the expected hour her son set out for the neighbors and found that she had never arrived there. He at once summoned help and began a search. Not having found her at 11 o'clock he went to Long Creek for reinforcements and a large number of men responded. The search was kept up all night and the next morning she was found struggling along through the snow five miles from where she had started and in the opposite direction from the house for which she had headed.

The night was bitterly cold and it is regarded as miraculous that she did not perish. Though an elderly woman her strength held out and she was able to keep walking all the time, realizing as she did that to stop meant death.

THREE OFFICIALS TURN OVER THEIR OFFICES TODAY

County Clerk Saling, Treasurer Bradley and Attorney Steiwer Give Way to Successors.

NEW REGIME BEGINS TUESDAY

Treasurer First Woman to Take Office in Pendleton; B. E. Anderson, New County Commissioner Will Also Take His Seat.

Though the newly elected officers cannot begin their official duties until next Tuesday, Sunday and Monday being holidays, today is probably the last day in office of three well known Unaffiliated county officials. It concludes the terms of Clerk Frank Saling, Treasurer G. W. Bradley and District Attorney Frederick Steiwer.

All three of these officials have put their offices in shape so that their successors may begin their duties Tuesday morning. County Clerk Saling, who is concluding 12 1/2 years of service, will be succeeded by R. T. Brown, formerly his deputy. It is generally believed that the new clerk will appoint E. O. Draper as his deputy and Miss Irene Sullivan, at present stenographer for Mr. Steiwer, as clerk's stenographer.

When Treasurer Bradley turns over the county's finances to Miss Grace Gilliam, his successor, he will have completed 10 1/2 years in that office. The new treasurer will be the first woman to take office here since her sex was enfranchised. She will probably have no deputy as one of her campaign promises was to conduct the office without assistance.

District Attorney Steiwer is completing his four-year term as prosecutor though he has been connected with the office longer, having served as deputy under G. W. Phelps. He will be succeeded by R. L. Keator, the present deputy. Mr. Keator has not yet decided whether he will appoint a deputy. His term will be inaugurated Tuesday in a businesslike way, inasmuch as the grand jury is called to meet on that day.

The retiring county clerk has a stock ranch near Stanfield and will devote much of his time to it in the future. Mr. Bradley has not yet formulated plans for his future activities. Mr. Steiwer retired from the district attorneyship to devote his time to his practice. However, he was elected state senator at the recent election and will leave soon for Salem to attend the legislature.

The first of the year will also see B. E. Anderson, the new county commissioner, and the county court will thus be restored to its three-man status.

CORONATION COMES ON EVE OF CRISIS

Growing dissatisfaction in Hungarian Government Over Premier Tizi; Zichy Is Mentioned As Successor.

BERLIN, Dec. 30.—The coronation of Emperor Karl of Budapest comes on the eve of a crisis in the Hungarian government. Count Tizi was chosen to place the crown on the head of the new emperor. For a month opposition has been growing to Tizi. Count Andrássy and Apponyi are leading the fight against the premier. These leaders are repeatedly conferred with the new ruler lately. It is believed Count Zichy is considered as Tizi's successor.

The crowning of the emperor queen will have a great effect on the populace of Hungary. She is intensely popular there.

BELIEVED THAT ALLIES ANSWER WILL CONTAIN PEACE TERMS OUTLINE

England Gradually Awakening to Fact That Effective Reply Must be Made to German Propaganda Spread in Front of Neutral Nations.

NOTE WILL BE ISSUED FROM PARIS BEFORE WEDNESDAY

PARIS, Dec. 30.—The allies' reply will be delivered to neutral diplomats this afternoon. It represents the German attempt to throw the responsibility of the war on them and refutes the central powers' claim of victory. It says for thirty months the entente has sustained a war which it tried its utmost to prevent, and showed by its acts the attachment for peace. The attachment is just as strong today as in 1914.

(ED L. KEEN.)

LONDON, Dec. 3.—Not only will the allies answer Germany's peace proposals and clearly set forth the principles for which the allies are fighting but it will contain an outline of the terms on which England and her allies are willing to negotiate it is confidentially expected.

The fact that the note would list the terms is expected as a result of the awakening of the last few days in England to the fact that the German propaganda to neutral nations must be effectively answered.

Press and public are united in the belief that the best answer will be a comprehensive reaffirmation of the allies' aims and a statement of what they regard as necessary peace conditions.

THREATENED BREAK WITH U. S. MAY FORCE GERMANY INTO A BETTER BASIS FOR PEACE

WASHINGTON, Dec. 30.—The idea of a break with Germany over submarine warfare, according to administration officials, constitute a strong club in forcing Germany to present a better working basis for peace than yet given.

The thought that a break might occur in event of peace failure, is inspiring President Wilson, according to cabinet members, while the endorsement of his views by neutrals is making him doubly anxious to keep up the work.

The action of Spain in protesting

Europe's interest is centered on Paris where the note will be issued. The note is completed. The Russians' draft will probably reach Paris today with those of the other ententes. It is thought it will be made public before Wednesday.

That Germany sent out feelers because she realized the Somme offensive indicated future defeat is suggested. "The moral is the battle was scarcely ended before Germany asked peace."

Quoting Haig, the Post says: "In these simple words which resounded on German ears like thunder lies the explanation. All the allies need to consider is whether or not Germany will concede the objects the allies are fighting for or prefer to resist until their resistance is broken. Any suggestion on the part of neutrals that a compromise might be effected is an attempt to spare Germany and as such is a violation of neutrality."

LONDON, Dec. 30.—According to the Central News dispatch from Madrid, Spain has notified the United States she cannot support Wilson's note.

WASHINGTON, Dec. 30.—The Danish note supporting Wilson's note similar to the Norwegian message was received today.

MILITARY MEN WATCH RESULT WITH INTEREST

New Appliance Recently Invented for Aeroplanes is Tried Out in Trip From New York to Philadelphia.

ENGLISH AIRMAN ACCOMPANIES

First Plane Passed Over Philadelphia at Eleven Thirty—Journey is Hundred and Fifty Miles.

HEMPSTEAD, L. I., Dec. 30.—Fourteen of the country's best aviators started at ten this morning for the League Island Navy Yard, in Philadelphia, at great speed. The flight is the greatest from a military standpoint in the history of the United States. It is expected to prove, or disprove the value of Honda appliances invented for aeroplanes. Aviator Allen, formerly of the British flying corps is accompanying the flight. The first passed over Philadelphia at eleven thirty four. The trip is a hundred fifty miles.

Private Samson of Coyle made the first landing. He was closely followed by T. C. Millman and five others. Samson's time was an hour and thirty seven minutes. The fastest time from New York to Philadelphia here was two hours.

The aviators were compelled to fly high to avoid air currents. They were muffled in fur coats and numb when they arrived. At 1 o'clock there were eight arrivals. Two were compelled to turn back because of motor troubles.

STRIKE OF METAL TRADE WORKERS IN PORTLAND GROWING

PORTLAND, Dec. 30.—The strike of the metal trades workers assumed large proportions this afternoon when six hundred employees of the Northwest Steel Company joined those walking out yesterday from the Williamette Iron and Steel works, bringing the total to a thousand. Two hundred Columbia shipbuilding employees are expected to quit any minute. There is no violence.

HERMISTON MAN FOUND TO HAVE BROKEN SKULL

Injury Is Held Responsible for Irrational Spells of Paul Mumma, Who Has Been Ill Since 1913.

Mrs. Mumma has just returned home from Portland with Paul, where the latter was taken for medical treatment. While there X-ray photographs were taken of Paul's head which disclosed a startling condition. These photographs show a bad case of fractured skull, which Portland physicians declare responsible for Paul's trouble.

In September, 1915, while working for the government, Paul became insane and while at times he has been almost normal, he has been troubled the greater part of the time since. In his lucid periods Paul has always insisted that he was beaten over the head and the photograph would indicate this to be true.

Mrs. Mumma will return to Portland soon with Paul for an operation which it is hoped will give him permanent relief.—Hermiston Herald.

MILITARY DICTATOR OF FRANCE AND HIS WIFE

GEN. HUBERT LYAUTEY AND WIFE

General Hubert Lyautey, long kept in Morocco by French politicians, who feared to let him have a hand in the management of the war, has now become virtually military dictator of France. He has been given greater

power than is possessed by any other single person in any government of the allies. A few days after he was recalled from Morocco and chosen as one of the war council of five that body passed a resolution in which he has been given supreme power.
